

DEMO 101 - Demonstration List

View Online

This list will showcase the new features of Talis Aspire. Your reading list will look different. It will be more visual (including showing book covers) and will be easier to navigate. Staff and students will now have the same view - see the impact of changes to your lists and how they will look to students. The bookmarks functionality has also improved - you can search your bookmarks and also search and add resources directly from reading lists without the need to visit external sites. Editing is also easier - you can access your editing options easier.
